

Enter the Water Dragon: Are we headed for a year of 'smooth sailing' or turbulent waters? Find out in our 2011 water review which includes five trends for 2012. Given the new No.1 Document's focus on agri, we look to see if China can grow enough food to ensure 'a prosperous ever after' and gain insight on water pricing trends from Sino French Water. With China owning the headwaters of South and SE Asia's key rivers, we review the overhanging threat of water wars. Will the Water Dragon stir up these heated waters? Isabel Hilton, editor of China Dialogue explains why she thinks this is much ado about nothing. Happy reading and happy lunar new year!
